

CoreDev Zero - Production Scripts

Direktori `/scripts` telah dibersihkan dan hanya berisi script essential untuk production.

Script Available:

1. `deploy-enhanced.ts`

- **Purpose:** Main deployment script untuk semua contracts
- **Usage:** `npx hardhat run scripts/deploy-enhanced.ts --network coreTestnet`
- **Output:** Deploy semua contracts dan update deployed-addresses.json

2. `deploy-testing-factory-simple.ts`

- **Purpose:** Deploy MarketFactoryTesting dengan trust score requirement rendah
- **Usage:** `npx hardhat run scripts/deploy-testing-factory-simple.ts --network coreTestnet`
- **Use Case:** Development/testing ketika perlu bypass trust score requirement

3. `extract-abis.ts`

- **Purpose:** Extract ABI dari compiled contracts untuk frontend
- **Usage:** `npx hardhat run scripts/extract-abis.ts`
- **Output:** Update frontend-abis.json untuk frontend integration

4. `interact-contracts-simple.ts`

- **Purpose:** Basic contract interaction dan testing
- **Usage:** `npx hardhat run scripts/interact-contracts-simple.ts --network coreTestnet`
- **Features:** Create profile, check status, basic operations

5. `network-status.ts`

- **Purpose:** Check network connection dan contract deployment status
- **Usage:** `npx hardhat run scripts/network-status.ts --network coreTestnet`
- **Features:** Verify contracts exist, check network health

Production Workflow:

1. Fresh Deployment:

```
npx hardhat run scripts/deploy-enhanced.ts --network coreTestnet
npx hardhat run scripts/extract-abis.ts
```

2. Testing with Lower Requirements:

```
npx hardhat run scripts/deploy-testing-factory-simple.ts --network coreTestnet
```

3. Verify Deployment:

```
npx hardhat run scripts/network-status.ts --network coreTestnet
```

4. Basic Interaction:

```
npx hardhat run scripts/interact-contracts-simple.ts --network coreTestnet
```

Files Cleaned Up:

Removed 22 debug/testing scripts:

- All boost-trust-* variations
- All debug-* scripts
- All test-market-creation-* scripts
- All complete-setup-* variations
- All fix-* scripts
- All grant-* and check-* scripts

Result: Clean, focused, production-ready script directory! 🎯
